Workday Financials Certified professional with 4 years at Deloitte. Currently pursuing MS in MIS at Texas A&M University.

EDUCATION

M.S. Management Information Systems **Aug 2025 - Jun 2027**

Texas A&M University, Mays Business School | GPA: 3.11/4.00

B.Tech Electrical Engineering **Aug 2017 - Jul 2021**

Veer Surendra Sai University of Technology, India | GPA: 3.43/4.00

PROFESSIONAL EXPERIENCE

Workday Consultant | Deloitte USI | Hyderabad, India **Sept 2021 - Aug 2025**

- Led end-to-end data conversion projects across six Workday Financials implementations, covering full lifecycle from planning, design, cutover execution and post-production validation.
- Migrated Workday modules like customers, suppliers, AP and AR accounts, business assets, banking & settlement, Projects, SCM and HR Core modules, achieving 99.5% data conversion accuracy.
- Developed SQL ETL pipelines to enhance data quality across conversion cycles, running parallel testing and reconciliation to validate accuracy before each cutover milestone reducing downstream re-work by 40+ workhours.
- Tracked 200+ defects across SIT, UAT, and production environments using JIRA and Smartsheet, resolving data validation issues and ensuring go-live readiness across 4+ client engagements.
- Built and maintained 40+ third-party e-procurement punchout integrations using cXML core connectors for enterprise suppliers including Dell, Grainger, Office Depot, and Connection.com.
- Developed inbound/outbound procurement integrations for Abbott and Pyxis Item Master using Workday Studio and authenticated using x509/PGP encryption and SFTP, migrated across tenants using Object Transporter 2.0.
- Deployed check print banking STUDIO integrations using fixed length XSLTs, and leveraged REST and SOAP web services for custom Workday fields, supporting Workday and external system transformations.
- Led RPA initiative using Automation Anywhere to automate Workday configuration builds, accelerating 65% of instance delivery, recognized with Spot Award for team impact.
- Collaborated with senior stakeholders for Healthcare and Telecom clients, translating technical integration and conversion status into structured leadership communications across weekly and milestone cycles.
- Built 60+ highly customized validation reports (Advanced, Matrix, Composite) in Workday reporting, including calculated fields, prompts, and filters, retained post GO-LIVE, created reversal journal files for GL Reconciliation.

PROJECTS

MaysConnect | n8n, SharePoint, Monday.com **Nov 2025 - Dec 2025**

Deployed an E2E solution for student engagement platform via an RFP-driven approach with product UI design and system architecture definition. Achieved real-time workflow automation using n8n.

AetherMart | AWS EC2, MariaDB, Python, NoSQL **Aug 2025 - Nov 2025**

Implemented a cloud-native e-commerce data architecture for full Product Lifecycle with ETL pipelines, clustering, and vector embeddings for product metadata. Enhanced using RAG-based semantic search and recommendation engines to enable intelligent product discovery.

CSEGSA Hackathon 2026 | Snowflake, Snowpark, Streamlit, Cortex Analyst, SHAP, Python **Jun 2026**

Built 3 end-to-end solutions in 24 hours: a Customer Churn Classifier (Gradient Boosting, AUC 0.94) with SHAP explainability and Streamlit dashboard, a Conversational BI tool using Cortex Analyst NL-to-SQL over 22M+ records with AI-generated summaries, and a Workforce Risk Scoring engine detecting flight patterns with Cortex COMPLETE-driven retention plans.

TECHNICAL SKILLS

- **Workday:** Financials (GL, AP, AR, Procurement, Expenses, Projects, PSA), Workday Studio, EIB, Core Connectors, Report Writer, Calculated Fields, Workday Security, Data Conversions, PRISM
- **Integration and Data:** XSLT, XML, JSON, XPath, REST APIs, SOAP, cXML Punchout, ETL Pipelines, SQL, Python, Automation Anywhere (RPA), n8n, AWS
- **Tools and Delivery:** JIRA, Smartsheet, ERP Project Lifecycle, SDLC, SIT/UAT, Stakeholder Management, Process Documentation, SharePoint

CERTIFICATIONS AND ACHIEVEMENTS

Workday Financial Integrations | Workday Financials Reporting | AWS AI Practitioner | AWS Cloud Practitioner | Postman Essential Training | AI for Project Managers

- **Spot Award, Deloitte:** Self-developed RPA bots to automate Workday configuration, reducing build effort by 65% across 6 implementations.
- **Applause Awards x4, Deloitte:** Recognized for data conversion design and development excellence, and for PSA module delivery on RGP project.
- **Technical Interviewer, Deloitte Workday Practice:** Conducted technical interviews, evaluated potential candidates, worked alongside HR team for active recruiting into the Workday ERP practice.
